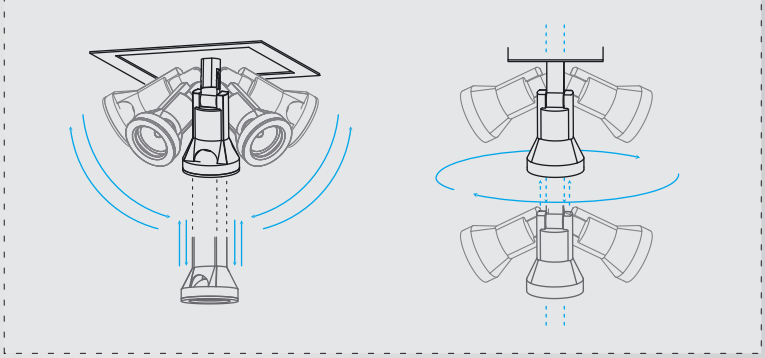
_Empotrable extraíble multidireccional

PUNTO ILUMINACION

MOVIMIENTO EXTRAÍBLE MULTIDIRECCIONAL



Sistema que conjuga cajas empotrables con cabezales, dotados de un movimiento extraíble, que le permite emerger y bascular 90° en todos los sentidos, logrando dirigir el haz hacia el punto seleccionado. De 1, 2, 3 y 4 luces. Práctico anclaje al cielorraso. Cabezales construidos en inyección de zamac a presión. Para lámparas dicroica, bipín, Halopar 16 y AR111.
